## DYNAMICS GP EXPERTISE AND SUPPORT

Opal's Dynamics GP expertise is invaluable to Bridgeway, especially in transitional periods. Nick, Chief of Technology at Bridgeway, explained, "We move fast and pivot quickly, and Opal's been there to help us with those transitions and enable the flexibility with our projects and teams." If an issue or new project request arises, Nick says "Opal's been very good at responding and helping us out. There never seems to be significant runway to help us get started on projects, unlike with other providers."

In partnership with Opal, Bridgeway has found steadfast support for Dynamics GP, propelling them forward in the dynamic world of transportation and logistics.
