

# MICROSOFT DYNAMICS 365

## AI-Powered CRM & ERP Applications

Microsoft Dynamics 365 is a comprehensive suite of business applications that streamline processes, boost productivity, and drive growth. With Microsoft Dynamics 365 Business Central, Sales, Customer Service, and Field Service, you'll connect your entire organization and create exceptional customer experiences.

### Move Beyond Traditional Finance

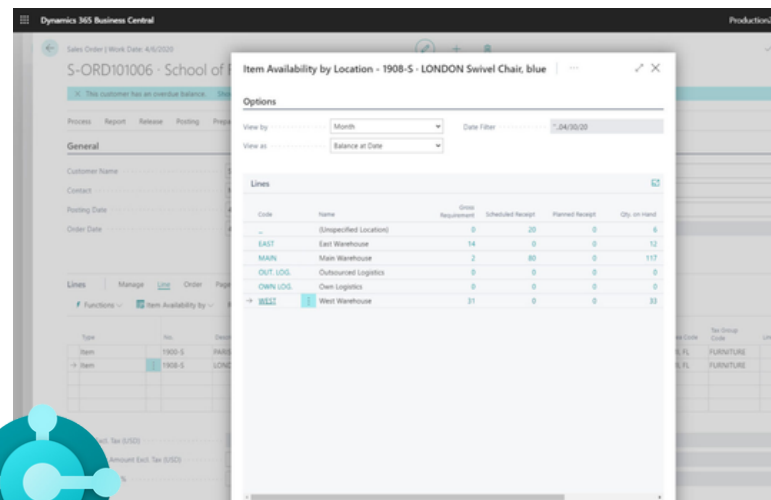

Innovate and keep pace with evolving needs by using AI and automation to optimize financial and accounting operations.

### Know Your Customers To Increase Sales

Grow your revenue by using AI and real-time insights to understand customers, personalize journeys, and close more deals.

### Personalize Service Experiences

Create more lasting customer connections at every touchpoint while improving team processes and productivity with AI.

### Increase Productivity

Collaborate and be more productive by sharing information and insights in the tools you work in – including Microsoft Teams and Microsoft 365.

### Put AI To Work

Be more efficient with Microsoft Copilot for Dynamics 365 – built-in AI-powered experiences available for select licenses at no additional cost.
