

# ConnectWise + Business Central Connector

The seamless, turnkey solution to integrate your invoicing and financial data, no more manual exports, formatting headaches, or missing payments.

## The Problem

### ConnectWise isn't built for accounting

Businesses that use ConnectWise still need a dedicated accounting platform. Without a native connector, users are forced to manually export invoices from ConnectWise.

## The Solution

### A purpose-built connector that syncs

Our ConnectWise + Business Central Connector bridges the gap with a native integration built inside Business Central.

## Key Benefits

- 1 Save Hours Each Week**  
No more tedious rekeying or manual imports.
- 2 Boost Data Accuracy**  
Eliminate human error and mismatched records.
- 3 Better Business Visibility**  
Bring more invoice details into BC & get cleaner insights.
- 4 No Middleware Required**  
Unlike other connectors, this one lives inside Business Central.
- 5 Zero Maintenance Setup**  
Self-service onboarding means no IT to make it work.

## What Sets Us Apart

**Most competitors** use middleware tools to relay data between ConnectWise and BC, which adds:

- *extra cost*
- *extra risk*
- *steeper learning curve*

**Our solution** is native to Business Central ensuring *easier management, better performance, and greater security!*

**Pricing**  
**\$199/ month**
